- The SRL is inserted into the cover from the carrying handle side (A, B).
- The cover is closed along the housing with a Velcro® strip (C).
- The wrap-over part of the cover protects the carrying handle (D). The SRL is now completely protected on the front (D) and back (E).
- The back of the cover has a flap that closes with a Velcro® strip. The back flap can also be lifted to view the serial number and other information through a transparent section of the cover (F).
